Welcome to kSemin

We, at kSemin, collaborate with enterprises to revolutionize their organisational processes, business data, intelligent products, critical software, and highly available services across any cloud infrastructure. Our well-established transformation model and cloud-native approach empower enterprises to swiftly deploy production-grade applications, products, or services, ensuring built-in security and compliance.

Who we are

kSemin empowers businesses to harness the full potential of cloud technology. With tailored strategies and expert guidance, we navigate clients through the complexities of cloud adoption, optimizing efficiency, scalability, and security. Our holistic approach ensures seamless integration of cloud solutions, enabling organizations to innovate, streamline operations, and drive growth. From initial assessment to ongoing support, we prioritize client success, delivering transformative results in the rapidly evolving digital landscape. Embrace the agility and resilience of the cloud with our trusted partnership, and unlock new possibilities for your business's future.

About Us

Transforming Legacy Systems to the Cloud kSemin, based in Pune, India, specializes in cloud migration services, assisting clients worldwide in transitioning from on-premise infrastructure to the cloud using our proven Cloud Transformation Model.

→ Successfully migrated over 6000 applications to the cloud.

→ Utilizes an enterprise-grade CI/CD model for seamless transitions.

→ Expertise in transforming applications from legacy systems to cloud environments through a refined model.

→ Evolved orchestration process over the past decade, moving through IaaS, PaaS, SaaS, and AaaS models.

With extensive experience and a track record of success, kSemin has refined its cloud migration process to ensure smooth transitions and optimal performance. Let us help you transform your business and unlock the full potential of the cloud.

Our **Mission**

At kSemin, our mission is to empower businesses worldwide by seamlessly transitioning their on-premise infrastructure to the cloud. Leveraging our proven Cloud Transformation Model, we aim to deliver innovative, efficient, and secure cloud migration solutions that drive operational excellence and unlock the full potential of digital transformation for our clients.

Our **Vision**

Our vision is to be the global leader in cloud migration services, renowned for our expertise in transforming legacy systems into agile, cloud-based environments. We aspire to continuously evolve our orchestration processes and technologies, setting the industry standard for cloud migration and helping businesses achieve their strategic goals through cutting-edge, enterprise-grade solutions.

Our Solutions

Software Development

We specializes in cutting-edge software development, delivering robust solutions, seamless integrations, and user-centric designs for diverse business needs.

Consulting

kSemin excels in providing top-notch consulting services, offering tailored solutions, innovative strategies, and unparalleled expertise in various industries.

Cloud Migration Services

kSemin leads in cloud vendor-neutral design and migration services, ensuring seamless transitions, optimized architectures, and scalable solutions for diverse enterprises.

Product Modernisation

At kSemin we boasts expertise in product development, modernization, and seamless cloud onboarding, guaranteeing optimized performance across diverse cloud platforms for clients.

Our Solutions

Cloud Security

Delivering top-tier cloud security services, ensuring robust protection, compliance, scalability, and seamless integration for businesses.

Legacy Modernisation

We offers exceptional legacy application modernization services, enhancing functionality, scalability, and user experience for businesses of all sizes.

Platform Services

Our excellence is in delivering application release services, ensuring efficient, timely, and seamless deployment of software solutions for clients.

24x7 Support

We delivers exceptional 24x7 support services, offering prompt, reliable assistance and resolution to clients, ensuring uninterrupted operations..

Our Products

Services Overview

Reliable, secure, and expert-driven cloud support for seamless operations and business agility.

Security Solutions

Seamless cloud integration, robust security, proactive support, and scalable solutions for business success.

Cloud Transformation

Reliable, secure, and expert-driven cloud support for seamless operations and business agility.

IoT Cloud Platform

Seamless cloud migration enabling rapid, agile deployments with a proven model and CNCF tools.

Our Products

Hybrid Application Release Platform

Automated, efficient, and risk-free software deployment for faster time-to-market.

FinOps Solutions

Seamless cloud integration, robust security, proactive support, and scalable solutions for business success.

Infrastructure Monitoring

Real-time, proactive infrastructure monitoring for optimal performance, security, and reliability.

Generative AI

Integrating ChatGPT, Bard, and Azure AI to enhance customer interactions, create dynamic content, and optimize workflows for business innovation and efficiency.

Our Services

kSemin Systems Private Limited is a leading provider of comprehensive IT solutions specializing in cloud services, data management, security, and AI/ML integrations. The company offers a wide range of services, including VM Pool Migration, Hybrid Cloud solutions, and Containerization, alongside cutting-edge offerings like Ephemeral Environments and Green Coding. With expertise in Infrastructure as Code (IaC), Platform as a Code, and Service as a Code, kSemin also provides tailored AI/ML design services and integrations. Their expertise spans various areas, such as Cloud Native Transformation, DevOps solutions, automated releases, and modern data infrastructure like Data Lakes and Data Warehouses. kSemin is also committed to enhancing security across all layers, offering solutions in Application, Network, Container, and Infrastructure Security, along with regulatory compliance, Data Loss Prevention (DLP), and Security AI Integrations. Whether through consulting, monitoring, or strategic migrations like Database and Middleware Migration, the company ensures high-performance, secure, and scalable environments for businesses navigating complex technological landscapes.

Our Services

→ Infrastructure Modernization

- VM Pool Migration
- Hybrid Cloud
- Containerisation
- Ephemeral Environments
- Green Coding
- Infrastructure Monitoring
- AI / ML Designs
- Platform as a Code
- Service as a Code
- AI Model Integrations
- Design & Consulting
- Infrastructure Monitoring

→ Application Modernization

- Application Containerisation
- DevOps Solutions
- Database Migration
- Middleware Migration
- Cloud Native
- Transformation
- Serverless Solutions
- Automated Releases
- Automated Test Farms
- Application Insights
- Application Dynamics
- Security & Compliance

→ Data Modernization

- Modernising ETL
- Transform Data Lake
- Modern Data Warehouse
- Business Data Analytics
- Application Intelligence
- AI/ML Solutions
- Migration of Big Data
- Data Decommissioning
- Storage Modernisation
- Data Consulting
- Data Lifecycle
- Archival Solutions

→ Cloud Security

- Application Security
- Network Security
- Storage Security
- Infrastructure Security
- Container Security
- D. L. P. Services
- Regulatory compliance
- API Endpoint Security
- Resource Security
- Consulting
- Security AI Integrations
- Cloud Security & FinOps
